Experience

Microsoft Redmond, WA
Software Engineer (WebXT/Bing) Sept 2022 - Aug 2024

- Implemented language backfill logic and enhanced language extraction for **+2 Billion** Urls indexed by Bing, exposing rich content for **+100 million** businesses in **+150** different markets on Bing. (**C#**)
- Improved the coverage of Bing Amenities for **+6 Million** new businesses (**+55%** feature coverage improvement). Enhanced Bing Amenities quality by **+30%** leveraging **LLMs**, benefiting **+14M** businesses and reducing frequency of user-reported Bugs by **+80%**. (**C#, Python**)
- Engineered automated pipeline (**ADF**) for discovering new domains for Bing; onboarded **+500** new providers, enriching data for **+2.7B** businesses. Managed vendor team to develop models for **HTML** content extraction from new domains, integrating content into Bing. (**SQL**)
- Developed real-time monitoring dashboard for Bing rich data with routed alerts for quick, **on-call** response to data outages & bugs. (**HTML**)

Huawei Technologies Canada Markham, ON (Remote)
Software Engineer Intern May 2020 - Aug 2021

- Collaborated with a team of architects & engineers to develop (**C/C++**) the infrastructure for a distributed database leveraged in **5G networks**.
- Optimized storage processing logic & improved transactional procedures in a distributed database system (**C++, SQL**).

Skills

Software	Python · C# · C++/C · SQL · JavaScript · HTML · CSS
Frameworks	.NET · Node.js · React.js · React Native · PyTorch · TensorFlow · Flask
Technical	Linux · Git · Bash · GDB · Docker · AWS · ADF

Projects

Pebbles Toronto, ON
University Design Team Recommendation App Jun 2021 - Sept 2022

- Created recommendations application to cluster students & professors into engineering design teams based on internal & external signals/interests
- Full stack application with database (**AWS DynamoDB**), backend API (**Python** + **AWS**) & frontend application (**TypeScript**)

Course Finder Toronto, ON
Course Planning Web App Sept 2021 - May 2022

- Created full stack application designed for course registration & selection at University of Toronto, with user profile & authentication
- Integrated database (**PostgreSQL**), backend API (**Python Flask** + **SQLAlchemy** ORMs) & frontend application (**React.js**)

Education

B.S. (Honours) in Computer Engineering Toronto, ON
University of Toronto Sept 2017 - May 2022

- 3.72 GPA
